DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of species in the reply filed on 7/21/05 is acknowledged. The traversal is on the ground(s) that there is only one embodiment so, cannot have different species. This is not found persuasive because base on the claims, they are mutually exclusive (See MPEP 806.04 (f)).

The requirement is still deemed proper and is therefore made FINAL.

2. This application is in condition for allowance except for the presence of claims 1-11, 24-52 and 65-84 to an invention non-elected with traverse in the reply filed on 7/21/05. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Allowable Subject Matter

3. Claims 12-23 and 53-64 are allowed.

The following is an examiner's statement of reasons for allowance:

- The primary reason for the allowance of claims 12-23 is the inclusion of the limitation of a printing device for performing recording on a recording medium comprising the wiper base being slidably mounted on the recovery mechanism to wipe the discharge surface and to cover the caps when the caps are not capping the print head. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.
- The primary reason for the allowance of claim 53-64 is the inclusion of the limitation of a method in printing device comprising a step of moving a wiper base in a recovery mechanism to a cover position on which the wiper base covers a first cap and a second cap provided in the recovery mechanism and moving the wiper base away from the cover position to uncover the first and second caps. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.
